Wo	Museo del Prado - Madrid, Community of Madrid, ES
Kategorie	Museum
Autor	dvepeter

Beschreibung

A free evening talk at the Museo del Prado about digital tools, visitor services, and how event management extensions such as JEM can support museum programmes. The session is designed as a demo-friendly museum event: limited room capacity, two seats per user, waiting list enabled, a downloadable handout, and supporting links. It shows how JEM can manage cultural events where registration, attachments, links, venue data, and recurrence work together.
